Scope

- Objectives
- Assembly Steps

Objectives

- At the end of this training, students will
 - Assembled their AI Car

AI Car Building Guide

1. Offline Guide (This PDF)
2. YouTube Video Guide: [AI Car Building Guide](#)

Part List

Different type of wire lengths:

Blue: Long

Grey: Middle

Black: Short

Two pins cable: Use with switch
(*Not applicable for AI Car building*)

While during building the AI Car, you are freely to decide the lengths of wire to use

Step 1: Motors Base Plate

Parts:

(11 holes)

Qty: 2

Qty: 1

Qty: 2

Qty: 14

Bottom view

Top view

Step 2: Servo Motors

Parts:

Qty: 2

ID-1 & ID-2

Take note on the ID

Qty: 2

Qty: 2

Black/Blue

Qty: 2

Qty: 4

Blue: Long

Black: Short

Will connect to uKit Explore
main board

Step 3: Motors with Base Plate

Parts:

Step 1 Part

Step 2 Part

Bottom View

ID-02 ID-01

Top Rear View

Step 4: Motors Top Plate

Parts:

Qty: 1

(11 holes)

Qty: 2

Qty: 8

Qty: 2

Bottom view

Top view

Step 5: Motors with Top Plate

Parts:

Step 3 Part

Step 4 Part

Front view

Rear view

Step 6: Arduino Board and Mount

Parts:

Qty: 3

Qty: 1

Qty: 1

Qty: 6

Qty: 4

Qty: 1

Qty: 1

Please refer to [Step 6 Video Guide](#) to assemble the top and bottom acrylic

+

=

Step 7: Eye LED Lamp & Button

Parts:

Qty: 1

Qty: 1

*Optional

Qty: 2

Blue or Grey

Qty: 4

Rear view

Will connect to uKit Explore main board

ID-01

Front view

Assemble AI Car

Rear view

*Optional

Front view

Will connect to uKit Explore main board

Step 8: Mobile Holder part 1

Parts:

Qty: 2

Qty: 2

Qty: 16

(9 holes) Qty: 3

Qty: 2

Step 9: Mobile Holder Part 2

Parts:

Step 8 Part

Qty: 2

Qty: 8

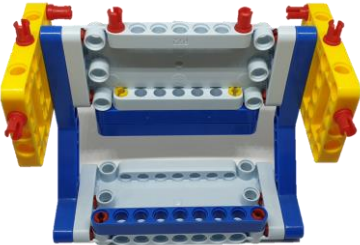

Slot in position

Step 10: Mobile Holder Part 3

Parts:

	Qty: 2		Qty: 4
	Qty: 2		

(15 holes)

Step 9 Part

Assemble AI Car

Step 11: Mobile Holder Part 4

Step 12: Put in the LED Lamp and Button

Parts:

Step 7 Parts

*Optional

Step 11 Part

View 1

Assemble AI Car

View 2

*Optional (button/touch sensor)

Step 13: Assemble Motors with Mobile Holder

Parts:

Step 14: Secure Motors with Mobile Holder

Parts:

Step 13 Part

Qty: 2
(13 holes)

Assemble AI Car

Step 15: Assemble Arduino board with Car

Parts:

Step 6 Part

Step 14 Part

LED Lamp Eye

Button

Servo Motors cable

Step 16: Putting on Bluetooth Module

Step 17: Power Bank and Mobile phone

You did it!

Congratulations
